## ... HUNT IN SOUTH WEST ASIA

Azerbaijan is a landlocked country in the Middle East between the Caspian Sea and the Caucasus. In the north, Azerbaijan borders on Russia (Dagestan), in the north-west on Georgia, in the south on Iran, on the west on Armenia, and on the exclave of Nachichevan, on Turkey. The capital of Azerbaijan is Baku (Azerbaijani Baki), a major port on the Caspian Sea. The total area of the country is 86,600 square kilometers. Around 9.4 million people live in this area.

Until 1991, Azerbaijan was part of the Soviet Union and became only then independent.

## HUNT IN THE MOUNTAINS

Hunting in Azerbaijan on Dagestan Tur is certainly one of the most physically demanding hunts a hunter can cope with. Therefore, very good physical preparation and proper equipment is indispensable.

For clothing, we recommend a light but long-sleeved garment. For the ascent, it is recommended to choose a thin, light and breathable hunting gear. Once you have reached the summit, rest or lie in front of a pack of turs, we recommend to put on a thin fleece jacket.

Remember to bring a thin mattress and a sleeping bag for the night as you stay in a tent in the mountain.

As optics, we recommend a light stalking bino like 8x42 or 10x42, in the mountains it's always helpful to carry as little weight as possible. Choose a weapon with a high powered caliber like 7mm Remington, .300 Win. Mag or .338 Winchester Magnum. Shot distances are up to 300 meters, so a bipod is helpful. As with any other trophy and above all at a mountain hunt, it is a matter of stopping the game if possible directly at the spot. So choose a projectile, which has a great stop effect.

Dagestan Ture (or also called East Caucasian Tur) are powerful mountain goats. The average length of the horns is between 70 cm and 90 cm, but each year stronger ones are taken as well!

# CAMP

## SHEKI ODER QUBA

The two hunting areas are located northwest of Baku and are easily accessible by car.

On arrival day we stay at a Hotel in Baku. From there we will be picked up early the next morning and brought to the hunting area. Once in the area all the necessary equipment is loaded to the horses and from there on horseback to the base camp. Once in the base camp, you get to know your professional hunters for the coming days. Afterwards, each guest is required to take a test shot and the plan for the hunting days is discussed.

The next day is the first hunting day. 2 professional hunters and 2 guests set up the tent camp, the so-called „flycamps“ in the mountain, so that you can avoid the long ascent every morning. The hunt is always 1:1, while the tent camp is shared with another hunter from the group. It is not uncommon to see the first Turs even close from to the flycamp. Every morning you get up at sunrise and check the area with scopes. Depending on how fit the hunter is, the success usually comes quickly. As everywhere in the mountains: the fitter the hunter, the bigger the trophy ...

Experience a wonderful landscape and exciting hunting in Azerbaijan!
